MONEY, BONDS AND STOCKS,

The Market Duli Throughout and Awaiting Settlement of Railroad Troubles. NEW YORK, Nov. 30 .- Money on call was easy at 204 per cent., the last loan being made

at 21, closing offered at 21. Prime mercantile paper, 41 261 per cent. Sterling exchange was dull but steady at \$4.843

for sixty-day bills and \$4.881 for demand. The total sales of stocks to-day were 158,682 shares, including the following: Delaware, Lackawanna & Western, 5,200; Erie, 2,505; Lake Shore, 28,700; Missouri Pacific, 11,200; Northwestern, 5,160; Northern Pacific preferred, 9,900; Oregon Transcontinental, 3,500; Reading, 17,900; Richmond & West Point, 21,500; St. Paul, 13,400; Union Pacific, 11,400; Western Union,

The stock market was dull through the day. while the movements in prices were irregular and confined in most cases within the narrowest limits, and the fluctuations possessed little or no significance. The market is still waiting upon the settlement of the railroad difficulties, and there seems little or no disposition to trade, and the market to-day more than at any time during the past two weeks was under the control of the traders and "bears." Considerable manipulation was apparent in Rock Island, and although the dealings in the stock were not large, the crowd in it was unusually extensive, and the dealings in it limited as they were the pivot upon which the market turned. It is believed that some speculators have been short of stock, but in view of the uncertainty in regard to the course of the management in the proposed settlement, there is no position to touch the stock among the general run of operators. Missouri Pacific also displayed considerable weakness during the early portion of the day, and was not able to make up any of the decline, which was in some measure due to the drop in Manhattan, which sold down 4 per cent because of the recent decisions against the company in suits for damages. The strong points in the list were Lake Shore, and for some time in the forenoon St. Paul. There was good buying in the former, which apparently from inside sources. Much "buli was circulated upon the stock, strength was influential and in rallying the rest of the list, especially the other Vanderbilts, toward delivery hour. The news of the day was of a negative character and had no influence upon values, although the engagement of \$750,000 of gold for export caused

The opening figures were higher, in sympathy with London, and the general bullish feeling sent prices up fractions further. The selling of Rock Island, however, had a dampening effect upon the advance, and the market repeatedly lost all of the advantage, though, outside o Missouri Pacific, there was no special weakness displayed. The recovery was made before noon, and after that time the list fluctuated backward and forward within the smallest limits, dullness being the principal feature until Lake Shore came to the front and infused some animation and firmness into the speculation. Toward 2 P. M. the most of the advance was made, but in the last hour a sagging tendency again appeared. The market finally closed duil and unsettled at insignificant changes from the opening figures. The market is generally fractionally higher this evening, but the only marked changes were an advance of 1t in Lake Shore and a decline of 1 in Missouri Pacific.

Railroad bonds were again very dull, the sales of all issues reaching only \$916,000, while the one feature of the dealings was the activity and strength in the Chesapeake & Ohio fours certificates, which, on a business of \$163,000, advanced only | per cent. The rest of the list presented no character whatever, although some marked changes were scored. Among those which are higher this evening are Utah Southern Extension sevens, 3, to 110.

Government bonds were dull but firm.

CHICAGO, Nov. 30 .- News from the Northwest was bullish, but there was not too much wheat for sale, and there was a sharp break from the advance of Wednesday, with a partial recovery later in the day. The feeling, how-ever, was unsettled, and operators were a little mixed as to which course to pursue. The opening of the market was a shade easier than Wednesday's closing, and the feeling soon became quite heavy under free offerings. Operators who had gone home long on Wednesday and with signs of weakness, to-day commenced to realize, and there was a general pressure to sell. The result was that prices declined here 1%c. Following this decline the demand improved, and with less pressure to sell prices advanced 11c, with slight fluctuations, and the closing was to lower than Wednesday. Corn was only moderately active, and the feeling developed was again easier. Opening sales were a trifle below the closing figures of Wednesday, with offerings quite free and prices declined ic, reacted ic and closed 10 to lower than Wednesday. There was very little outside support to the market and the local demand was confined largely to covering by "shorts," considerable "long" property being offered. Prices for future deliveries of oats fluctuated ic and closed at about Wednesday's final figures. Quite an active speculative trade was reported in mess pork. The feeling was greatly unsettled and prices ruled very irregular. On the whole range a reduction of 40 @ 45c was submitted to, though near the close more steadiness prevailed, and prices railied 5@10c. Considerable interest was manifested in lard, and the feeling was weak. Prices advanced slightly at the opening, but the market weakened quickly, and prices receded . 124 @.15c,near the close rallied .021 @.05c, and closed Trading was quite active in short ribs and the feeling was unsettled. Prices ruled irregular, and declined .15@.17tc. but rallied .021 @.05c, and closed comparatively steady. The leading futures ranged as follows:

DUN & CO.'S REVIEW.

Lower Prices in Almost Every Branch of Bus-

iness-Slight Rise in Stocks. NEW YORK, Nov. 30 .- R. G. Dun & Co.'s weekly review of trade says. The outgo of gold and the situation in speculative markets cause lower prices in almost every branch, but in stocks some recovery bas followed reports of new and important agreements between railroad managers. The rise, averaging about 50 cents per share for the more active stocks, does not yet appear to indicate a change of tone. Combination on an entirely new basis for the roads west of Chicago is proposed, of which a vital feature is the entire withdrawal of power to make freight rates from subordinates. Indeed the clearing-house scheme, if accepted literally, would virtually take that power from the officers of each road separately. and the hearty consent of all competing lines being necessary, the reports that one or more will refuse thus to surrender their power seem to foreshadow the failure of the plan.

At the South delay in marketing cotton has much influence on trade. At Kansas City trade is comparatively quiet, and at Cleveland, Detroit and Milwaukee, improvement is noted, with a more active demand for money. Collections do not improve at the South, but seem fairly satisfatory at most Northern cities. The dry goods markets is more healthy as to

cottons, and with print cloths stronger at 3.94 cents, prices of other goods appear to be stiffening. No advance in prices of boots and shoes is now expected. The breadstuffs market, after sharp depression, has recovered a little. Wheat closes 2; cents lower; corn 2;c lower, and oats have declined ic. Cotton is ic lower. The prevalent opinion is that the crop will be not quite as large as last year's. Oil has changed little. Coffee has been marked up & cent, while pork is 25c per barrel lower, lard 17c and hogs 10c lower per 100 lbs. The uncertainty in theiron business increases.

Most furnaces are going into blast. Every furnace in the Pittsburg district is in operation, and the output is larger than ever. Buyers look for lower prices. The rail market is dull, and after a sharp competition between Pittsburg and Chicago, an order for 30,000 tons was taken at less than \$26 at the mill, it is stated, which would be the lowest prices on record, contrasting with \$37.25 a year ago. The combination has agreed that any mill may sell any part of its product to any other. Pig and bariron are both less firm in tone. The anthracite coal trade suffers from recent

over-production, and it is proposed to work only three-quarters time. Monongabela mining ceased Dec. 1, putting 6,000 persons out of work. The coke production is the largest on record. The lead market is dull at \$3.62; copper is weaker at \$17.35 for November, and tin at \$22.30. The treasury has avoided any accumulation of funds. The exports of merchandise from New York will be substantially the same in November as in the same month last year, with a decrease of 2 per cent. in imports. The movement in securities is uncertain. Thus far engagements for export of gold have not been large for the week. A continued outflow of gold in December, after generally satisfactory crops,

would be regarded as significant. The business failures number for the "eek, 232, as compared with a total of 296 last week, and 237 the week previous. For the corresponding week of last year the figures were 244.

MINNEAPOLIS, Nov. 30 .- The depressions in speculative markets put a damper on the buyers of milling wheat, and samples displayed on the tables went begging for purchasers in the first hour. Some inquiry developed later, but with most of the local millers out of the market, owing to the shutting down of many of the mills, there was not an extensive inquiry to be filled up. Concessions were offered by sellers, but no one seemed to be in a very great need of grain. Receipts for the two days were 759 cars. of which 383 came in over the Manitoba road. Shipments we 90 cars. A larger proportion than usual of the sample wheat was carried away unsold at the close. INDIANAPOLIS MARKETS. Trade Rather Slow, as Is Usually the Case After a Hollday.

INDIANAPOLIS, Nov. 30. In most departments trade dragged to-day, which is not unusual after a holiday. Dry goods men were doing something, there being a few buyers in, while mail orders were fair on all lines of goods, causing a strong tone to prices. Grocers were moderately busy, mainly in filling orders which had been delayed while waiting for the strike to loosen its grip on the movement of freights. Sugars are not in as strong position as at the first of the month. Stocks of refined are accumulating and more talk of cutting down of production heard. Coffees are a half cent higher than on the first of month. indications

point to a firm market for some time to come. The produce markets were flat. There is less poultry left over than usual, but prices ruled weak and a further break is indicated. Butter is hardly as firm, while eggs are still in good demand at quotations. Both apples and potatoes are firmer in tone, but not quotable higher. The flour market continues to move sluggishly with prices unsettled. The provision market rules quiet at unchanged prices. There is nothing in the situation to-day which calls tor extended comment. The trade of the mouth has not reached expectations, for which bad weather of twenty days and a railroad strike for the last eight days are in a large measure responsible.

The attendance on 'Change was small, and the bidding rather tame. The strike is still seriously interfering with the grain movement, and both receipts and shipments are very light. Prices on both wheat and corn are weak, while on oats and hay they rule strong, with an excellent demand. But little is doing in futures on either cereal. membership, in order to make things lively.

The potato crop in Indiana this season is said to be by far the largest ever known there, a fact which is somewhat surprising, considering how completely politics has absorbed the energies of the people there during the potato bosing season. It has been the popular impression that the weeds got ahead of the useful crops during the summer, while the farmers were sitting on the fence discussing the political situation. The news that the crops survived the excitement in that pivotal State is as gratifying as it is aston-
